

Lucy's Spice Box - Exists primarily because of the efforts of Contractor Monty Creach (General), John Peabody (Plans), Leonard Williams (Cement Contractor), Mike Flynn (Geo Engineer), Tom Oneto (Welding), Terry Weatherby (Structural Engineer), Sweet Pea Septic, Lawson Drayage & Rigging (Sacramento-found container and got it here) and the strong support of Amador County including but not limited to Scott Meyer (Health) and Richard Millar (Building). We are deeply appreciative of all their support in making the container kitchen a reality.

Monty & Crew
